ABOUT ME

I am a junior full-stack developer passionate about writing code and solving problems.

WORK EXPERIENCE

- Junior Full-Stack Developer: ProtoCare (Pty) Ltd** **October 2025 – Current**
 - Redesigned the notifications and alerts system to ensure patients receive timely reminders when forms are not submitted within 3 to 14 days. Implemented automated alerts for hospital-related forms, notifying patients of pending actions or updates.
 - Implemented a scheduled notification system that efficiently identifies patient records needing follow-up, sends timely reminders, and incorporates exponential backoff for retry handling.
 - Developed a mental health platform that allows patients to complete and submit assessment forms, ensuring data is collected efficiently and securely.
- IT Technician: Olehile Investment Pty (Ltd):** **September 2018 – January 2019**
 - Provided helpdesk support, including computer troubleshooting and repairs.
 - Installed, configured, and supported Microsoft Office 365 applications in public hospitals.
 - Gained hands-on experience installing, configuring, and repairing POS devices.

TECHNICAL SKILLS

- Languages:** Java, SQL, HTML, CSS, C#
- Frameworks & Libraries:** Spring Boot, RESTful APIs, Angular, Blazor
- Developer Tools:** Git, GitHub, Postman, Swagger
